**Step 2: Based on your research, which mobile device would you select? Be prepared to discuss your decisions regarding the mobile device you select.**

For me I would choose the **Samsung Galaxy S24 Ultra** as not only is the phone itself more powerful but its also more customizable compared to the Iphone 15 Pro Max. The Galaxy S24 Ultra also comes with a **stylus** as it can be used by both **artists** and **students** who take notes or like to draw while they are on the go without needing to carry a heavy tablet or multiple notebooks.

### **Conclusion:**

This activity seems to have the goal to teach students on how to compare 2 different phone models and see which one they prefer more. And I feel that it has achieved that as it has taught me that when choosing a phone I would want to have for a while as my personal / work phone.
